Kathy,

I did a site visit with our Response Department Head CDR Schoonover on 04 November. Here are some pictures from that visit. We did not see any active sheening, but LCDR Gough has a concern about the large amount of marine growth ivo of the affected area. Have a good day.

V/R,

LTJG J. N. DeLauter

USCG Sector Puget Sound

Incident Management Division

(206) 217-6171

Roger that CDR, I put our trusty Director of Marine Environmental, LTJG DeLauter, in charge of finding a day w/ minimal to no rain, partial sunshine, and a low tide to conduct a site visit / follow up (ideally w/in the next 2 weeks). He was out there during the project phase so he'll bring familiarity of the project.

v/r,

LCDR Wade Gough

Chief, Incident Management Division/

WMD Coordinator

Response Department

Sector Puget Sound (srm)

Wade,

I would like to head over when your team heads over there.

v/r,

CDR Mike Schoonover  
Response Chief, Sector Puget Sound

Wade, anything in here jump out at you, I mean the Gasworks NPL? We should probably run the Station with your people over there to have a look at how our part of the issue is holding up.

V/R Scott F.

Subject: Bremerton Gasworks Site - NPL proposed listing will be published tomorrow

Beginning Friday, September 16, your comments are invited on the U.S. Environmental Protection Agency's proposal to add the Bremerton Gasworks Site to the National Priorities List (NPL). The NPL is EPA's list of the most serious uncontrolled hazardous waste sites in the nation.

Listing the site will provide the means to complete further study and cleanup plans under EPA's cleanup program, also known as Superfund.

For more information:

(See attached file: Bremerton Gasworks Press Release 9-14-11 FINAL DRAFT.docx)

The press release above has two webpage links. Please note that you will be able to access the link to the Federal Register notice on Friday, September 16, the first day of the 60-day public comment period. The link to EPA Region 10's Bremerton Gasworks page will be accessible later today.
